In Collaboration With

The National Center for the Middle Market

Promoting Growth of the U.S. Middle Market

About the Center

The National Center for the Middle Market is the nation's first and foremost expert and leading source for the U.S. middle market. Founded in 2011 out of a multiyear partnership between GE Capital and The Ohio State University's Fisher College of Business, the Center has established a track record of funding and publishing journal quality research; providing world-class education, powerful tools, and dynamic events for middle market executives and business students; partnering with other organizations supporting the middle market; and raising national and local awareness of key middle market issues.

The Center's mission is to serve as the leading source of knowledge, leadership, and innovative research on the U.S. middle market economy by providing critical insights and analysis that help drive growth, increase competitiveness, and job creation for companies in this sector.

Understanding the U.S. Middle Market

The U.S. middle market is defined by companies with annual revenues between \$10 million and \$1 billion. It is incredibly diverse, reaching across all industry segments and encompassing publicly and privately held companies, family-owned businesses, partnerships, and sole proprietorships. While the middle market represents just 3% of all U.S. companies, it accounts for a third of U.S. private sector gross domestic product (GDP) and jobs.

Yet the middle market is not just important from a national perspective. At both the state and local level, in every corner of the country, it is middle market companies that are creating new jobs and driving growth and economic recovery in their regions and communities.
